Notes

- Put the spices, maple syrup, brown sugar and hops into a saucepan with about 2.5L of water and bring it to the boil

While this was coming to the boil, clean and sanitise fermenter and all other tools (spoon, seive, airlock, can opener) and put both cans of Coopers goo into sink of hot water

Simmer spice mixture for 20 mins then let cool for 30 mins with the lid on the saucepan

Open cans of goo, pour into fermenter and rinse cans with boiled water into fermenter

Strain spice mixture into fermenter

Stir well to dissolve the extract

Pour one saucepan full of water through strainer into the fermenter to extract as much tasty goodness into the mixture then continue to top up to about the 20L mark
